

Pet Compassion

Careline

PROVIDING FAMILIES WITH THE BEST IN PET AFTERCARE

Losing a pet is one of the most difficult things a person can experience. Whether it is sudden or anticipated, the loss of a pet is a highly emotional time.

We are excited to offer the Pet Compassion Careline, exclusive to all partner clinics. Available in English, Spanish and French, pet parents and their families will have access to experienced, professional, and confidential counselors.

Our Pet Compassion Careline is staffed 24/7 exclusively by Master's and Ph.D. level clinicians with at least 5 years' experience in the counseling field. When a client contacts the Pet Compassion Careline, their call is immediately answered by a Careline grief counselor. We are continuing to provide the best in pet aftercare and pet grief support.
